**BUTTONS / ZIP / OTHER**

### MY GAUGE (AFTER BLOCKING)

## This image shows a single sheet of white paper with horizontal blue or grey ruling lines, typical of notebook paper. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

# Swatches

Measure over 4 in (10 cm) in the middle of the swatch, away from the edges, after washing and drying it the way you'll treat the finished piece.

MEASUREMENTS

Measurements

Write down the body or item measurement, the ease you want, and what the pattern size gives.

| Measurement              | Actual | + Ease | = Finished | Pattern size gives |
|--------------------------|--------|--------|------------|--------------------|
| Chest / bust             |        |        |            |                    |
| Waist                    |        |        |            |                    |
| Hip                      |        |        |            |                    |
| Length (shoulder to hem) |        |        |            |                    |
| Sleeve length            |        |        |            |                    |
| Upper arm                |        |        |            |                    |
| Wrist                    |        |        |            |                    |
| Head circumference       |        |        |            |                    |
| Foot length              |        |        |            |                    |
| Foot circumference       |        |        |            |                    |
| Width                    |        |        |            |                    |
| Length                   |        |        |            |                    |
|                          |        |        |            |                    |
|                          |        |        |            |                    |
|                          |        |        |            |                    |

Cast-on maths

Stitches to cast on = finished width × stitches per inch (or per cm), rounded to fit the stitch pattern.

WIDTH

= STITCHES

STITCHES PER IN / CM

ROUNDED TO MULTIPLE OF

The cast-on calculator does this for you: [yarnandrow.com/tools/cast-on-calculator](https://yarnandrow.com/tools/cast-on-calculator)
